

Hangman's Daughter

Unida

She cried for lonely finesse she dove from dogs at sea
And each time he walled up to you
You knew it couldn't be
A take time
No with the dark line
And you watch her
Take the last line
She can ruin your whole damn life
She's just up to make it right
With the fix she threw back to you
You knew she was to damn tired
This time, well I ain't losin'
Crack smile, take the blues there
Well I am
Weather you like it
This time all I'm askin' is take
This one to show me
Well at night, now won't you take me there
Well then take
No one to show me
Well at night
No won't you take me, well take me there
Well...
She cried for lonely finesse she dove from dogs at sea
And each time he walled up to you
You knew it couldn't be
A take time
No with the loose line
And you watch her
Ride the last line
And this time
Well I ain't losin'
Crack smile
Take the booze in
Well I am
Weather you like it
This time
All I'm askin' is take
Is what to show me
Well at night
A won't you take me there
Oh please
Then take
No one to show me
Well at night
Now won't you take me
Well take me there
YEAH!
(Bad Ass Solo)
OHHH
Then take
No one to show me
At night
A won't you take me there
Oh please please
Take yeah
No one to show me

Well at night
Oh won't you take me
Well take me there
Please... ☐
