

Fuck this society that destroyed our lives
these people are hypocrites
they all shall die
take off the mask that has blinded
you today has created today.
I want to see society tremble and fall
watch it came down like the Berlin Wall.
Try to rebuild what has been destroyed.
Society rejects us every single day
they don't like our ideas or anything we say.
Now they're saying we're human waste
but we don't fucking care.
