

Fuck this society that destroyed our lives  
these people are hypocrites  
they all shall die  
take off the mask that has blinded  
you today has created today.  
I want to see society tremble and fall  
watch it came down like the Berlin Wall.  
Try to rebuild what has been destroyed.  
Society rejects us every single day  
they don't like our ideas or anything we say.  
Now they're saying we're human waste  
but we don't fucking care.
