

Your government is lying to you,  
we're not in control of the truth

Chance? Philosophy? Must be!

With new eras come new problems,  
as one people we can solve them

Chance? Philosophy? Must be!

chorus

There is so much to say about living today

(Can you feel it?) The compression of memorable events

Somewhere out there people are living nightmares,

it seems mankind is in entropy

and we, we can't attain true peace of mind to help humanity

Somewhere out there people are dying and no one cares

It's a true atrocity!

The seal of our Democracy!
