

You say I don't have a life yeah
I don't have what you have
I don't live with my regrets.
I do all I want to do no sky
is my limit I'm gonna live my life
the way that I think is best for me.
You've tried to hold me back
I've never given in to your perfect so-called way of life.
You called me a retard cause I don't think like you
