

# Beautiful Life

Union J

She sees the world through TV screens  
All of her friends in magazines  
But everyday she lives a broken dream, yeah  
Making her own reality

There's lots of make-up on her face  
To cover up an empty space  
But there's a lot behind those big blue eyes  
She just don't realise

Everybody's gone and lost their mind  
It's just the days we live in  
Most of the time

Get up off the dark  
Open up your eyes  
You'll discover there's a world outside (world outside)  
To fix a broken heart  
You have to try  
Pick it up, pick it up  
It's a beautiful life  
Beautiful life, beautiful life  
It's a beautiful life, beautiful life.

He got his fortune on the plate  
But all that money won't change fate  
He's got 6 zeroes but no one to share it with  
No friends, no girl, no one in the world

Everybody's gone and lost their mind  
It's just the days we live in  
Most of the time, yeah

Get up off the dark (get up off the dark)  
Open up your eyes  
You'll discover there's a world outside  
To fix a broken heart (to fix a broken heart)  
You have to try  
Pick it up, pick it up  
It's a beautiful life  
Beautiful life, beautiful life.  
It's a beautiful life, beautiful life.

We are not so different, you and I  
Cause everybody's got a place to hide  
But it's just the things we live in, hmm  
Most of the time

Get up off the dark (get up off the dark)  
open up your eyes  
You'll discover there's a world outside (there's a world outside)  
To fix a broken heart (to fix a broken heart)  
You have to try  
Pick it up, pick it up  
It's a beautiful life  
Beautiful life, beautiful life
