

# Song For You And I

Union J

You took a diamond from the dust  
Made it brighter with your love  
How will it shine now you're gone?

It's like a broken melody  
You're the missing half of me  
Don't know how my heart still beats

And I hear it in the air, the song for you and I  
Every dream that we share is written in the sky  
But I won't forget the day you left and said goodbye  
I let you go, that's when I wrote the song for you and I

Singing oh, oh oh oh  
Oh, The song for you and I  
Oh, oh oh oh  
Cus I let you go,  
That's when I wrote the song for you and I  
I see you when I close my eyes  
Get to hold you every night

When the morning comes I'll smile  
I feel the rhythm of your heart  
Even though we're miles apart  
Got me wishing on these stars

And I hear it in the air, the song for you and I  
Every dream that we share is written in the sky  
But I won't forget the day you left and said goodbye  
I let you go, that's when I wrote the song for you and I

Singing oh, oh oh oh  
Oh, The song for you and I  
Oh, oh oh oh  
Cus I let you go that's when I wrote the song for you and I  
Yeah I let you go, that's when I wrote the song for you and I

Music keeps playing, now you're gone  
I hear it playing all night long  
Our dreams were written in the sky  
Cus I let you go, that's why I wrote the song for you and I

Song for you and I

Singing oh, oh oh oh  
Oh, The song for you and I  
Oh, oh oh oh  
Cus I let you go, that's when I wrote the song for you and I  
Oh, song for you and I  
Oh, song for you and I  
Oh, song for you and I  
I let you go, that's when I wrote the song for you and I

Cus I let you go, that's when I wrote the song for you and I
