

Together

Union J

Hey, you, watch d'ya say to a few drinks by the lake?
We'll watch the sun go down
With the music playing loud
And no one is gonna tell us
No, no one's tellin' us what to do-o-o
(Oh yeah)

We'll be laughing
We'll be joking
We'll be making sweet memories
We'll be listening to Katy, love
And living our teenage dream

Because we are alive, crazy
And it's beautiful to feel alright
Knowing no one needs to fall in love tonight
The good times have only just begun

'Cause together
(We are)
We are an army and
(We bring)
We bring the party
(We are)
We are an army and we bring the party
When we're together

We played truth or dare
Made out everywhere
And we danced on top of cars
Wrote songs on guitars
Fun, fun, fun
Everything was going our way

(Oh yeah)

We were laughing
We were joking
We were doing those things we do
We were turning up Taylor
And going crazy like we're 22

Because we are alive, crazy
And it's beautiful to feel alright
Knowing no one needs to fall in love tonight
The good times have only just begun

'Cause together
(We are)
We are an army and
(We bring)
We bring the party
(We are)
We are an army and we bring the party
When we're together

We are alone and we bring the party

Raise up your glass and let me hear you say
We are united
We'll make tonight the best of our lives
'Cause
Because we are alive, crazy
And it's beautiful to feel alright
Knowing no one needs to fall in love tonight
The good times have only just begun

'Cause together
(We are)
We are an army and
(We bring)
We bring the party
(We are)
We are an army and we bring the party
When we're together
