

# My Sanctuary

Unisonic

I play a role in a world so wrong  
Create a man, I can do what I can do  
Skills are meant for two  
Into the realm where the shadows fall  
Looking for the one that will keep me safe from you  
Tell me who is who  
Now I'm hiding from the enemy  
Just spite, too beneath  
I'm out in the cold  
So alive, running free  
In my sanctuary  
Flying on wings of eternal blaze  
Preoccupied with a creature that won't fall  
I left it standing tall  
I saw the nature of a million place  
Loaming in the dark is a woman old so cool  
Just gotta late for school  
Now I'm screaming out in misery  
Why can't you leave me be?  
I'm out in the cold  
So alive, running free  
In my sanctuary  
Flying high, holding me  
In my sanctuary, my sanctuary  
I'm hiding from the enemy  
So much to loose  
I wanna take control (sanctuary)  
Give me (sanctuary Ooh),  
In my eyes, give me  
(sanctuary, give me sanctuary  
Oooh)  
Give me sanctuary, sanctuary  
(Oooh)  
Give me sanctuary, sanctuary  
Oooh  
So alive, running free  
In my sanctuary  
Flying high, holding me  
In my sanctuary, my sanctuary  
Give me sanctuary, sanctuary
