

# You Come Undone

Unisonic

Life can be so frustrating  
Boring and aggravating  
So hard to read between the lines

Gotcha stuck in overdrive  
But you're running low  
As you fight against the undertow

And your heart is yearning  
World keeps on turning  
No way back in time  
Though your body is striving  
Your soul is denying  
Keeping you behind -  
Then you come undone

Your fate is pre-decided  
Opinions all provided  
Everybody's got a piece of mind

Got a bottle of desolation  
Let it fuel the fire  
Then you crawl away from all desire

Now your heart is yearning  
The world keeps on turning  
No way back in time  
Though your body is striving  
Your soul is denying  
Keeping you behind -  
Then you come undone

You can hold the flame  
To find the way  
And make you see  
Light is hope, hope gives meaning  
Take a chance and live  
It's not too late,  
Don't you come undone
