

RALLY ROUND

United Flavour

We rally round the green, yellow and red,
yellow, black and whites
dem shaking their dreads,
rally round the green, yellow and red,
yellow, black and whites
dem shaking their dreads,
shaking their dreads, Oh Lord,
shaking their dreads.

We bring them up, we lift them up,
we cheer them up
and we rise them up
then we burn it up,
and in the East, in the West,
in the North, in the South,
in every corner of Earth
Reggae is taking over,
giving thanks and praises
we're taking it over.

We rally round the green, yellow and red,
yellow, black and whites
dem shaking their dreads,
rally round the green, yellow and red,
yellow, black and whites
dem shaking their dreads,
shaking their dreads, Oh Lord,
shaking their dreads.

We're promoting peace,
we're promoting justice,
Righteousness, till every man
get some food to eat
regardless of the color of their skin
We're warning the wicked comforting the meek

Dem said we'll never reach the top,
predicted we flop, we drop
coz I and I no dollar back up.
Dem call we under dog rock,
call we lower class pop...
thank God we're rocking every club
around the clock.

We rally round the green, yellow and red,
yellow, black and whites
dem shaking their dreads,
rally round the green, yellow and red,
yellow, black and whites
dem shaking their dreads,
shaking their dreads, Oh Lord,
shaking their dreads.
