

## Make Love

Uniting Nations

Let's make love, come on and celebrate  
One more time and the stars will shine  
Let's make love, come on and celebrate  
Baby get up now, turn your look around

We're holding up right now  
It makes you feel somehow  
We'll be together forever there's no doubt  
Holding up right now, it makes you feel somehow

Just making love, we're making love  
Just making love, we're making love

Let's make love, come on and celebrate  
One more time and the stars will shine  
Let's make love, come on and celebrate  
Baby, get up now, turn your look around

Just making love, we're making love  
Just making love, we're making love

Baby, get up now  
Turn your look around

Let's make love, come on and celebrate  
One more time and the stars will shine  
Let's make love, come on and celebrate  
Baby, get up now, turn your look around

Let's make love, come on and celebrate  
One more time and the stars will shine  
Let's make love, come on and celebrate  
Baby, get up now, turn your look around
