

Cowboys or Indians

UNKLE

Alone in my wonder
A gaze of my lover
I hear the thunder
As they walked away
They walked away
They walked away
They walked away
They walked

Nothing left secret
Going for sake this
Breathing and perish
Making me relic
Thought you were hatred
Left me sedated
Look who am face with
No one to cherish
I see your menace
I can't take this
State of neurosis
Affecting my closest
Making no progress
hopeless
Live with the dosage
Self medicated
T you behave
Bargain again or administrate
Righteous away

Drowned in a wonder
Taking me under
Pray for the thunder
As they walked away
They walked away
They walked away
They walked away
Walked... Away

that I lost
cost
love of my loss
I feel it to wash
that I lost
soul when afraid of the cost
the love of my loss
Nothing left secret
You pray and I perish
I see your hatred
This is forsaken
Going now make it
Going for sake this
A moment to cherish
Making me relic
This only make shit
They only know faceless
I am a nobody
I'm just a vessel

Not holy or special
I'm just a vessel
You're holding your medal
I see your hatred
I see your hatred
Watching you perish

Walked away
They walked away
