

# Heaven

UNKLE

Where's the Seraphim  
Where's the money that we made  
Where's the open gate  
Where's the fortune that we saved

Heaven's here for you and me  
With every falling curl  
Heaven's here for you and me  
We gained ourselves the world

Hit the Motorway  
I can take it all at speed  
I got everything  
I got everything you need

Heaven's here for me and you  
Scattered out with pearls  
Heaven's here for me and you  
We gained ourselves the world

Where's the warrior of light  
With gates of solid gold  
Paranoia through the fight  
With dreams that never fold  
Heaven's here for me and you  
Scattered out with pearls

Heaven's here for me and you  
We gained ourselves the world(2x)
