

In A State

UNKLE

My mind is in a state
'Cuz all I seem to do is tempt with fate
Well I try a real space
But all the world are crushing at the gate
This time...
This time...
Reality's struck me in between the eyes

My mind is in a state
'Cuz everything I miss it comes too late
So I try and disappear
But there is only one way out of here
This time...
This time...
Reality's struck me in between the eyes

My mind is in a state
But all I need to do is change my pace
And I know there's fear to face
But happiness is found in its embrace
This time...
This time...
This time...
This time...

This time...

This time...
