

# Looking for the Rain

UNKLE

Children born to get high  
Turn your heads to the sky  
We're burnin' in the heat below

With the thorn in the side  
And the ocean too wide  
And the avenues so long

We'll be sufferin' here  
In the blood in the fear  
If your Judas be met  
I would kill you if I cann

Solitary nightbird is singin'  
Or a thundercrack you're hearing  
I'm lookin' for the rain  
To fall

Here's a rift-like shadow appearing  
And though my eyes are pale  
I'm lookin' for the rain  
To fall

We'll be sufferin' here  
In the blood in the fear  
If your Judas be met  
I would kill you if I can

Children born to get high  
Turn your heads to the sky  
We're burnin' in the heat below

With the thorn in the side  
And the ocean too wide  
And the avenues so long

Here's a rift-like shadow appearing  
And though my eyes are pale  
I'm lookin' for the rain  
To fall

I'm lookin' for the rain  
To fall

I'm lookin' for the rain  
To fall

On this down to the fear (?)  
All the dogs in the street  
Are seeking shelter before a storm  
I'm Lookin' for the rain  
To fall

Lookin' for the rain  
To fall
