

## Revenge

Unleashed

Doomed for all eternity  
Cause I never could agree  
A normal life I will deny  
Do not bother asking why!  
From the shadows where I dwell  
Here's my way to give you hell

Revenge

Years have passed and I'm still alive  
Censorship is a fascist lie  
A thousand times I'll rise again  
You can't escape my last revenge  
For all the times you've let me down  
I'll crush your face into the ground

Revenge

Come forth on precious hate  
My vengeance is your fate  
Come feel my last revenge  
So painful until the end
