Revenge

Unleashed

Doomed for all eternity
Cause I never could agree
A normal life I will deny
Do not bother asking why!
From the shadows where I dwell
Here's my way to give you hell

Revenge

Years have passed and I'm still alive Censorship is a fascist lie A thousand times I'll rise again You can't escape my last revenge For all the times you've let me down I'll crush your face into the ground

Revenge

Come forth on precious hate My vengeance is your fate Come feel my last revenge So painful until the end
