## We'll Come For You

Unleashed

Demons gather slowly around this city of hell The zombies are dancing in the moonlight A feast for all you sinners of joy and blasphemy The evil armies attack to night

We'll come for you We'll come for you We'll come for you Ain't nothing you can do

A morbid angel signs with demented voice The orchs are pounding the drums of doom and night Men and ghouls with blackened eyes and faces deranged The evil armies attack to night

We'll come for you We'll come for you We'll come for you Ain't nothing you can do We'll come for you We'll come for you We'll come for you Ain't nothing you can do
