

# Snow White

Unshine

For paleness of the moon  
when mandragon's in bloom  
he chants undying  
music of doom

For brightness of the sun  
when coldness is gone  
he waits for  
the moment of hunt

Constant course  
through the darkest wood  
she summons up  
her bravest mood

Immortal is thy life  
immortal is thy ride  
against  
the forces of time

At sky ancient starlight  
will shine as her guide  
before  
the end of the night

She feels  
their union in blood  
is now the time  
of outset or end

Run now like a prey  
snow white now fly away  
your heart is pounding  
fast  
run now fly away  
snow white you are the prey  
he is nearing  
fast
