

## My Own Blood

Until Rain

My weakest part is you, the past can prove it  
All those things you've done to save me from the pit  
You wiped the dust from my forehead  
After all those years I betrayed you and him  
You came back

Come to me brother I need you with me  
No one can save me from the monsters I see

I never wanted this life for us  
Escape was not an option  
I thought I was protecting my own blood

Inside this fight there is no mercy. Neither a shelter to rest  
We fool the people to protect them. Lies, from scratch 'till the end  
Don't lose your patience and your faith  
I tried to do my best. I wasn't strong enough  
God where are you now that I need you

Stay with me brother I'm counting on you  
No one's here for me I can't stand losing you

I never wanted this life for us  
Escape was not an option  
I thought I was protecting my own blood

Come to me brother I need you with me  
no one can save me from the monsters I see  
Stay with me brother I'm counting on you  
no one's here for me I can't stand losing you

I never wanted this life for us  
Escape was not an option  
I thought I was protecting my own blood  
I always wanted this life for us  
Escape was the only option  
I never said that you were  
My own blood
