

Pandemic

Until Rain

Once upon a time near the end of Creation
Were living quietly in an age of destruction
Something new was born in a corner of the earth
Spread of an epidemic as if it was the Black Death

Pandemic H1M1 Swine Influenza

So many people died
You should have warned them
This world is cripple and it cries
For every now and then

All that is pandemic (4x)

Burn your mind
And sell your soul
Lucrative civil affairs
I am the victim on the wings of hers

Wearing the mask avoid the death,
Whispering the words of prejudice
To protect the body health
And infect the other selves

(Wearing the mask avoid the death
To protect your minds health
Whispering the words of prejudice in their ears
Drugging with jab into the blood
To protect the body health
Whispering the words of terrorism in a state of
Panic, Brainwash, Schizophrenic
All that is Pandemic)

Dont burn your mind
and save your soul
Now give your fight
Play an important role

All that is pandemic
Dont burn your mind
and save your soul
Behind this prism you can see
The sickness of misery

Dont sell your pride
Now give your fight
Things ain't what they used to be
The pandemic is killing me

Please dont try to fix me
Cant you see? Its time for me to leave
I spent my life in front of prism
And now Im trying to feel so free

All that is - pandemic

Dont burn your mind

and save your soul
Behind this prism you can see
The sickness of misery

Dont sell your pride
Now give your fight
Things ain't what they used to be
The pandemic is killing me
