

# Last Chance

Unwritten Law

She'll be my demise  
With Red lips and blood shot eyes  
My girl she just don't know.

Cause she knows she won't be back  
Well she came like a woman and she left like a girl  
She gives me good good lovin then she wrecks my world  
She got her name from her daddy  
Her style from her mom  
She said love ain't nothing but a word in a song.

Ooh la tee dee la ta da  
And the band played on.

Last Chance to get started  
Last dance yeah I keep falling  
In love with you let's do it again  
Let's do it again

I'll be there for you  
White lie and a kiss goodbye  
Small price my one true vice is you.

(Nothin' lasts forever)  
She toys with her boys then she cries like a girl  
She gives em good good lovin then she wrecks their  
world  
When she runs to her dad he says she acts like her mom.  
Singing love ain't nothing but a word in a song.

Ooh la tee dee la ta da  
And the band played on.

Last Chance to get started  
Last dance yeah I keep falling  
In love with you let's do it again  
Let's do it

Last Chance so let's get started  
Last dance yeah I keep falling  
In love with you let's do it again  
Let's do it again  
(music)

Last Chance to get started  
Last dance yeah I keep falling  
Last Chance to get started  
Last dance yeah I keep falling  
In love with you let's do it again  
Let's do it  
Ooh, Last Chance so let's get started  
Last dance yeah I keep falling  
In love with you let's do it again  
Let's do it again  
Let's do it again  
Oh, yeah.
