

Sleeptalk

Up Dharma Down

You know I hate it
Everytime you sleep talk through the night
You say all the things
That you also deny

Though it's okay
Cause we have our little infidelities in life
It doesn't mean that it's also right
To keep me out of this... Yeah

You gotta hear me say
Gotta hear me say no

You gotta hear me say
Gotta hear me say no

Promise me you'll never
Come back again
Got nothing left for you

Sleeptalk
My love
Sleeptalk
My love

When I've come so far
When I've come so far
When we've come so far
And this is what you do
And this is what you do
When I've come so far
You and I
When I've

And this is what you do
And this is what you do
And this is what you do
And this is what you do
To me

What are you thinking of
Hateful
I love you
