

# Blood Is Thicker Than Water

## Upon This Dawning

You can be sure, I'll always do my best to never let you down

I know you won't let me down  
You're the light that will never leave me  
You light up my way  
I can always count on you

And I swear  
I will keep it close  
'cause your love's the most precious thing that I've ever had  
And I know you will do the same  
'cause our friendship's what keeps us alive

I know you won't let me down  
You're the light that will never leave me  
You light up my way  
I can always count on you

Let me say we are more than friends  
'cause we are brothers, and brothers are fucking blood  
And brothers are a fucking family

I can't see our future  
But I'm sure, yeah, that we'll be together

I swear  
I will keep it close  
'cause your love's the most precious thing that I've ever had  
And I know you will do the same  
'cause our friendship's what keeps us alive

I know you won't let me down  
You're the light that will never leave me  
You light up my way  
I can always count on you  
This is my love that will last forever
