

## The Encounter

## Upon This Dawning

Let my soul burn in your empire  
Bury my sins in my own grave

My body is getting cold again  
The pain inside me is slowly dying

I want to let it go  
And pray to a brand new god

Reborn

I want to do the same mistakes  
This body is just a human cage

I want to let it go  
And pray to a brand new god

Reborn

Let my soul burn in your empire  
Bury my sins in my own grave
