## The **Encounter**

## **Upon This Dawning**

Let my soul burn in your empire Bury my sins in my own grave

My body is getting cold again
The pain inside me is slowly dying

I want to let it go And pray to a brand new god

## Reborn

I want to do the same mistakes This body is just a human cage

I want to let it go And pray to a brand new god

## Reborn

Let my soul burn in your empire Bury my sins in my own grave
