

Throw It Back

Urban Mystic

I wanna see you throw it back like that
Then when it's good take your head look back
Spread your wings and fly away
Let's change your sad face
I wanna see you throw it back like that
And when it's good take your head look back
Let it go, we got all night
Hey I wanna see you throw it back, throw it back

Let's write it down, starting with your smile
You're like cinnamon, sweetest caramel
Your skin is soft as silk
Smooth as butter milk
I'm about to have a taste
Another refill,
Look at your curves
Deeper than the sea
I'ma take a dip
You can grip on me
You're simply outrageous
Basically contagious
I'm going all in
Like I'm in Vegas

7/11 throw that 7 to 11 now
Then take a rubber band and tie a pair now
Then lose your feelings and you can let 'em all hang out
I wanna, I wanna

I wanna see you throw it back like that
Then when it's good take your head look back
Spread your wings and fly away
Let's change your sad face
I wanna see you throw it back like that
And when it's good take your head look back
Let it go, we got all night
Hey I wanna see you throw it back, throw it back

You're my hennesy on the rocks without a chain
I'ma take a shot catch a DU out of day
I'm goin' 25 on your freeway
Don't wanna make it home
Unless you do the same
I got your hair in the palm of my hands
You can make a sound and let me know you understand
You're my pusha girl from now to end of 6
I'm always fiending girl, so let me get a fix

You can light that fire put that butt up in the air
When I inhale it you can help me blow it out now
Gon ahead and lose it, you can let your water fall down, down

I wanna see you throw it back like that
Then when it's good take your head look back
Spread your wings and fly away
Let's change your sad face
I wanna see you throw it back like that

And when it's good take your head look back
Let it go, we got all night
Hey I wanna see you throw it back, throw it back

I wanna see you playing catch girl
I can be the quarterback
When I pass it you, see to throw it back
URBAN MYSTIC
That's Urban Mystic baby

I wanna see you throw it back like that
Then when it's good take your head look back
Spread your wings and fly away
Let's change your sad face
I wanna see you throw it back like that
And when it's good take your head look back
Let it go, we got all night
Hey I wanna see you throw it back, throw it back
