

Eating Me

URBANDUB

I got some things on my mind
I sit and wonder if I'll find
In time, the one that's meant for me,
Fine, I'll just abide by my time
I'll sit awhile and just whine, act fine,
If that's what's meant for me.
Man how its been long...

I sit around and wonder why
Little by little each time
This thing is eating me up inside
Little by little each time.
