

## Face In The Woods

URBANDUB

It's such a lonely road to hell  
So, patiently I wait for death  
She's gotta be out there  
A pack of wolves are after me  
Beliefs are memories  
So hard to find  
They gotta be somewhere

Dead and a waste such are ways  
How to save a soul  
I nearly lost control

I have only myself to blame  
Wolf in sheep's skin  
A little treat with a dirty mind  
My faith goes up in flames  
Wolf in sheep's skin, a little treat  
Is anyone out there  
With dirty minds?  
I'm dirty

Slit to bleed cuz you'd like to think  
Heaven is waiting  
Beg at the gates, see if they'll let you in  
Turn you away with the bared teeth  
Turn you away with the bared teeth

Dead and a waste such are ways  
How to save a soul  
I nearly lost control

Is anyone out there
