

She Keeps Me Warm

URBANDUB

The way that you flow like art
Making my breathing hard
You're touching me the right way
And made me feel home

She's keeping me warm tonight
Her kiss sets cold hearts on fire
Making me whole again
She made me feel whole

Our lips like poems
Under twisted sheets and flesh Come to me in silence
Cuz you need not once to speak
I'll cine right in you
Through streets of quiet wonder
We lie together in lonesome city
Enveloped by shadows and safety
You made me feel home

She's keeping me warm tonight
Her kiss sets cold hearts on fire
Making me whole again
She Made me feel whole, ooh

She's keeping me warm tonight
Her kiss sets cold hearts on fire
Making me whole again
She Made me feel whole, ooh

She's keeping me warm tonight
Her kiss sets cold hearts on fire
Making me whole again
She Made me feel whole, ooh
She Made me feel whole, ooh
She Made me feel whole, ooh
