

The Burning Taste

URBANDUB

These forces that constantly pull my mind
In silence i numb myself blind
Ive wasted every inch of my youth my sugar high

You said we'd fuck the world
So fuck em all

I'll burn you its so good
I taste you it's so good
We're flyin its so good
I'll fuckin its so good

In my system
Theres truth that ive found god
five fingers and firey eyes the earth moves further faster?

Ive float in the space with you all
We'll cling in to your wings and fly
Hold on
So hold on
And we'll fly so violently

Ive burn you its so good
I taste you its so good
Were flyin it so good
I fuckin its so good

Ive burn you its so good
I taste you its so good
Were flyin it so good
I fuckin its so good
