What's the matter with you? You've been down all day What happened to you To make you feel that way?

Baby ain't that a shame when they call you those names Dropping out from school Guess it wasn't so cool Everyone, everyone needs, some space to breathe

All the time we have been blind, so blind Yeah we just couldn't see it, Yeah you're too old to cry Too young to die

What happens in the in between?

Don't you think its strange, things just change

Its just a burnt out town a burnt out scene

You've been a dropout ever since you've been seventeen

Lonely child, when will you see? You need to be free Often times people they find They're not blind

Yeah, they just don't see Lonely child listen to me It's just a burnt out town It's just a one horse scene

Gotta get away, gotta get away, you got to Hanging out in the parking lot at Dairy Queen You've been a dropout ever since you've been seventeen Gotta get away, gotta get away, you got to...
