

Last Train to Heaven

Urge Overkill

Last train to heaven
Well I caught it just in time
Pullin' out of New Mexico
That's where I did my crime

I made a man swing
From a necktie made of twine
But they'll never catch me
'Cause I jumped this No. 9

It'll all be fine
Wait a minute, stop this thing
Some cajun hoodoo fate
This train is loaded down

Gotta cargo full-O-hate
I axed them where it was
This speedball liner's bound
And they were laughing hyenas

As they pointed to the ground
we're going down
Last train to heaven
What a goddam fool I been

Open up that burnin' stove
For a shovel full-O-sin
Fear is the conductor
All aboard the Black Diamond

Express train straight to Hell
