```
She can't remember coming home
And I don't know her name
She woke up early now she's gone
Here we go again
This is not my way
Guess I lost my way
This is no place
This is no place I wanna be
This is nowhere
This is nowhere to be
It's already getting dark
And she's still not home
Somethin's following me I know
There's gonna be a storm
Guess I can't get over it
Guess I can't get over it
This is nowhere
This is no place I wanna be
This is nowhere
This is nowhere to be
You can change the way you are
Sometimes I don't want to pull that hard
This is nowhere
This is no place I wanna be - that I wanna be
This is nowhere
This is nowhere to be
I can't remember coming home
She don't know my name
She woke up early now she's gone
Here we go again
This is not my place
Guess I lost my way
You can change the way you are
Sometimes we don't want to push that hard
This is no place
This is no place I wanna be
This is nowhere - that I wanna be
This is nowhere to be
```
