

All God's Children

Uriah Heep

Crazy little whirlwind child
Pretty babies drive ya wild
Look like one, act like another
Every night a different lover
Get affection where you can
Try a boy then try a man
First time love is in the past
Make it young and make it fast

All God's children will have their say
All God's children must have their way

It's a game where you can cheat
Lovers falling at your feet
High on sensuality
A photograph for all to see
First time love is in the past
Make it young and make it fast
They can never get enough
Strong as death and sweet as love
They walk and talk like angels
