

Everything in Life

Uriah Heep

It doesn't matter what you say
The cards are in your favour
We don't need no magic ride
To take you far away
Just give it a silent thought
And you will find the power

'Cause everything in life
Will tell you something
Yeah everything in life can set you free

Can you remember a distant dream
That holds your real attention
You don't need a preacher's word
To know what's going on
The secret is all aboard
The wings of your perception

Stand up and fight your troubled mind
Wait no longer
See the power in your life

Disbelievers come on strong
Lost in self importance
They don't know an average man
Can see this mystery
Jump into the twilight world
And gather your awareness
