

# Hard Way to Learn

Uriah Heep

I should have walked away  
When I lost faith  
But I knew deep inside it was no disgrace  
You see, sometimes in life  
You have to know your place  
And it's a hard way to learn

I thought I was in control  
And all I had was safe  
But there was no way I could know  
That the risk was too great  
You see, sometimes life takes you  
Where you don't wanna go  
And it's a hard way to learn

It burns you up inside  
There is no truth without lies  
It takes your soul away  
'Cos it's a hard way to learn

I watched the world go by  
From outer space  
But there's nowhere left to hide  
In such a lonely place  
You see, sometimes you just have to  
Know your place  
And it's a hard way to learn

I'd swim an ocean but I fear I'd drown  
Just to escape from this place I'm bound  
Nobody told me just how hard  
I would hit the ground  
If I could leave, if I could only leave  
I would leave right now

It's a hard way to learn
