

Hot Persuasion

Uriah Heep

You know you light my candle
You knew you load my gun
You're way too hot to handle
There's nothing we ain't done

Give me your love
Give me that hot persuasion
I can't get enough
Give me that hot persuasion
Give it to me

Mouth full of hot persuasion
You face me upside down
A love for all occasions
You won't catch me foolin' around

Give me your love
Give me that hot persuasion
I can't, can't get enough
Give me that hot persuasion

Oh, I need to know you're near me
I need you by my side
You keep my tank on empty
You keep me up all night

Give me your love
Give me that hot persuasion
Oh no, can't get enough
Give me that hot persuasion

Give me your hot persuasion
I can't get enough, get enough
I've done hot persuasion
