

# I Can See You

Uriah Heep

She's the candle that lights my room  
Better look out 'cos she's coming here soon  
Ooh, you're in my mind forever  
I hear every word you say  
Ooh, you come to wherever  
And turn my darkness into day

You taught me how to live a life that's full  
I never realized what it is to be cool  
Ooh, you pushed me off the high board  
And I took I took it like a man  
Ooh, and now I hit the high score  
Hear me Momma if you can

I can hear you, I can touch you,  
I can see you in my head  
I can touch you, I can hear you,  
I can see you in my head

Hold tight to the driving wheel  
You gave me strength and nerves of steel  
Ooh, sometimes I do get lonely  
I roll the dice and say a prayer  
Ooh, I think about you only  
I feel the power when you there

I can hear you, I can touch you,  
I can see you in my head  
I can touch you, I can hear you,  
I can see you in my head

She's the candle that lights my room  
Better look out 'cos she's coming soon  
Ooh, if we can stay together  
There'd nothing in our way  
Here me Momma when I say

I can hear you, I can touch you,  
I can see you in my head  
I can touch you, I can hear you,  
I can see you in my head
