

# Light of a Thousand Stars

Uriah Heep

We stand like brothers  
Under troubled sky  
So crazy how we came to live this life  
Cross my heart but I refuse to die  
I'm coming home to you

They never gave us any guarantee  
All they want to see is bravery  
I can't live with this misery  
I'm coming home to you

And I don't know  
Who's on whose side  
Guide me with your love

Give me the light of a thousand stars  
Shine my way back to you  
Show me the road  
Get me over the line  
There's no limit to what love can do

Don't need no badge of honour  
On my sleeve  
The fear of dying is gonna set me free  
A part of you is still a part of me  
I'm coming home to you

'Cos I keep your picture  
Close to my heart  
You're the sweetest thing in this life  
And if I ever get back home  
I'm gonna fight to  
Keep our dream alive

You know that men are born  
And men will die  
I look at what I am surrounded by  
Gotta get out before I lose my mind  
I'm coming home
