

# Logical Progression

Uriah Heep

You say her love has gone forever  
And something has gone from your soul - it's left you so cold  
Though you wish you had the answer  
The question is always untold - always on hold  
What's in the mirror  
What do you see

It's a logical progression  
When you think that you lost all that time - it's all in your mind  
What's in the mirror  
What do you see

Lay down now and close your eyes  
It's only just begun  
'Cause mind and body flow in perpetual motion

Set free all your memories  
They're tearing you apart  
'Cause you know that love is the only direction

The reputation that you live by  
Says something about what's inside - nowhere to hide  
There is no amount of heartache  
That could ever wash over this burning - forever learning  
Look in the mirror - will you do it all again

Lay down now and close your eyes  
It's only just begun  
'Cause mind and body flow in perpetual motion

Set free all your memories  
They're tearing you apart  
'Cause you know that love is the only direction

You got time on your side  
You know you'll find the truth within you  
You got time on your side  
As the seconds tick away love is waiting for you  
You got time on your side

You say her love has gone forever  
And the image has left you so cold - still in your soul  
There's no way your gonna turn back  
You'll never wash over this burning - forever learning  
Look in the mirror - will you do it all again

Lay down now and close your eyes  
It's only just begun  
'Cause mind and body flow in perpetual motion

Set free all your memories  
They're tearing you apart  
'Cause you know that love is the only direction

You got time on your side  
As the seconds tick away love is waiting for you
