

# Lonely Nights

Uriah Heep

Will you risk your reputation  
I don't know  
You just don't know what you're saying  
Anymore  
You know beggars can't be choosers  
And it's bad  
We may win, we may be losers  
I don't care, no no no

Oh baby, I just can't stand  
Another lonely night  
So come on over and save me  
Save me from another lonely night

I hear every word you're saying  
They're all lies  
But with every breath you're taking  
You're thinking of a ways to say goodnight

Baby, I just can't stand  
Another lonely night  
So come on over and save me  
Save me from another lonely night  
Come on over  
Come and save me
