

Only Human

Uriah Heep

We're only human...

Keep on fighting
Don't let troubles get in your way
You can change and turn your thinking
To energy so beautiful

We're only human, looking for direction
We're only human after all
We're only human, wanderers and dreamers
We're only human

Deep satisfaction
Is there within the magic of life
And the laws of your attraction
Say everything you need to know

You can't imagine how
So many people wasting time
We can achieve the love
We need so we can shine
And see the things that life will
Bring us now in perfect rhyme
The secret is in you, always within you

Sleep on angel
Show us where you go in your dreams
And the universe will tell you
'Your wish in life is my command'

We're only human... human... human...
We're only human after all
We're only human... human... human...
We're only human

We're only human...
