

# Only Human

Uriah Heep

We're only human...

Keep on fighting  
Don't let troubles get in your way  
You can change and turn your thinking  
To energy so beautiful

We're only human, looking for direction  
We're only human after all  
We're only human, wanderers and dreamers  
We're only human

Deep satisfaction  
Is there within the magic of life  
And the laws of your attraction  
Say everything you need to know

You can't imagine how  
So many people wasting time  
We can achieve the love  
We need so we can shine  
And see the things that life will  
Bring us now in perfect rhyme  
The secret is in you, always within you

Sleep on angel  
Show us where you go in your dreams  
And the universe will tell you  
'Your wish in life is my command'

We're only human... human... human...  
We're only human after all  
We're only human... human... human...  
We're only human

We're only human...
