Perfect Little Heart

When I think about it Does anybody win Taking for yourself and giving nothing Now that we're apart I see it wasn't really love I can ride down the road And let my soul run free

You may think it over But no matter what you say You're talking to yourself And getting nowhere There ain't no second chances No reason to pretend I'm gonna ride down the road And let my soul run free

Now that we've grown apart It seems so very sad Why did it turn so bad and I remember You said that all good things Must surely end Never mind all the hearts That lie broken

I know I'll never make The same mistake again I doesn' matter what you say

Now I think about it We all need a little time 'Cause if we ain't got love We ain't got nothing The doors are opened wide On my one and only life Gonna ride down the road And let my soul run free

I know I'll never make The same mistake again But I will always be your friend

Now that we've grown apart It seems so very sad Why did it turn so bad and I remember And I remember

Let my soul run free Let my soul run free Did I break your perfect little heart
