

## Running All Night (with the Lion)

Uriah Heep

I've been waiting for my lady  
One hour - she finally came  
She's been walking by my table  
And I'm thinking  
What's this viscious game  
To be the only one who's waiting  
To play that white witches game  
And I knew that she was waiting  
To cut loose on the town and meet  
Somebody new for a change

When you're running  
All night with the lion  
Running all night with the lion...

I may not recall exactly  
Her eyes can hurt as seen now  
She was sitting at my table  
And I'm making out like a clown  
Oh, she'll make me very happy  
When she showed her fallen again  
And I knew she was waiting  
To cut loose on the town and meet  
Somebody new for a change

Rock 'n' rolling ladies  
Good life to the games you can't win  
She picked right up my table  
Till it's time to go in  
There's got to be something heavy  
If only you'd show me a sign  
When something said  
She was waiting  
To cut loose and meet  
Somebody new for a change
