

# Skools Burning

Uriah Heep

Stand up, sit down don't turn around  
Don't talk and don't smoke, don't laugh no joke  
Too many rules, too many fools  
Gonna raise it to the ground  
We're gonna get high, light up the sky  
Gonna burn it down

Yes sir, no sir, 3 bags full  
Speak up or shut up, backs to the wall  
Stand in a line, take it outside  
See the soldiers march in time  
Rollin' out of bed fallin' on my head  
I think I'll pull the pin

Skools burning, it's burning down  
Burning down, burning down  
Skools burning, it's burning down  
Burning down, burning down  
Skools burning, it's burning down  
Burning down, burning down  
Skools burning, it's burning down  
Burning down, burning down

Shape up, or ship out, your hair's too long  
Yes sir, no sir, the same old song  
Stay after time, and learn all your lines  
Or write 'em out a thousand times  
I heard what you said, bells in my head  
Gonna pull the pin

Skools burning, it's burning down  
Burning down, burning down  
Skools burning, it's burning down  
Burning down, burning down  
Skools burning, it's burning down  
Burning down, burning down  
Skools burning, it's burning down  
Burning down, burning down

There's gonna be a party tonight  
People gonna come from miles  
There's gonna be a fire here tonight  
Gonna dance with the devil till the dawn  
Dance with the devil till the dawn

Stand up, sit down, don't turn around  
Don't talk, don't smoke, don't laugh, no joke  
Gonna raise it to the ground  
Gonna get high, light up the sky  
Gonna pull the pin

Skools burning, it's burning down  
Burning down, burning down  
Skools burning, it's burning down  
Burning down, burning down  
Skools burning, it's burning down  
Burning down, burning down

Skools burning, it's burning down  
Burning down, burning down
