

## Fading Out

Urma

Fading out into those better days  
Surrender to the joy you give...  
Exchange my future for a priceless smile  
It seems to be the perfect trade

Give myself away...give myself

Fading, healing, trust, believing  
Resling, dreaming...happy feeling  
Could you shut te door...and waste me?

Peaceful poison to my demons  
Little girl defines the reasons...  
Could you shut te door...and waste me?

Give myself away...give myself
