

Say You Belong To Me

Us3

Boy I know that where we are is just the place to be
It seems like everything around is gone
It's just you and me
It's time for the show
We can do whatever just feel free
Let's take the time to read each other's minds, it's on
I know that you've been watching me
I can see that it's more than just a crush
I know where you'd like to be
I want you in my arms and feel your touch
I have been waiting for so long
It's now or never before the time is gone
I'll give you everything you need
If you tell me you belong to me
(chorus)
Say you belong to me
Don't you know that I want you for myself?
I know that you're watching me
Don't you know that it's you and no one else?
Say you belong to me
Don't you know that I want you for myself?
Baby don't you be shy with me
Just say you belong to me
Say what?
We're getting close
I can feel the heat under my feet
Take it slow
Whisper in my ear softly
Baby tonight
It's only your voice I wanna hear
I'll make you feel right
As long as you belong to me
(chorus)
Boy you know that I can read your mind
And your attention is so plain to see
But tonight I wanna take my time
I want you to look in my eyes and read
Boy you know that I can take your mind
And turn you into anything I want you to be
But tonight I wanna hear you say it
Say you belong to me
(chorus)
